The people at Office Master (OM) believe in doing true and everlasting good. We believe that when we promote responsible new practices that build upon the organization’s existing good habits, we can not only strengthen our products and the company but just as importantly, meaningfully minimize any negative impact we might have on our surrounding environment.

To this end, we’ve established at OM a culture of pursuing “Sustainable Environmentalism” – environmentalism that brings into harmony the enterprise’s economic and environmental responsibilities.

By making the pursuit of environmental conservation align naturally with the undeniable corporate maxim of economic viability we manage to make OM a more responsible corporate citizen not just for isolated press releases, but day-in and day-out. Now that’s taking a meaningful stand and making a positive difference for our future generations.

**YES (YS) Series Product Sustainability Summary**

GREENGUARD™ Certification Status: GREENGUARD® Certified  
GREENGUARD® Children and Schools Certified

Our seating may contribute towards the attainment of the following LEED credits:

- MR Credit 2.1 (Construction Waste Management, 50%)
- MR Credit 2.2 (Construction Waste Management, 75%)
- MR Credit 4.1 (Recycled Content, 10%)
- MR Credit 4.2 (Recycled Content, 20%)
- MR Credit 6 (Rapidly Renewable Materials)
- MR Credit 7 (Certified Wood)
- EQ Credit 4.5 (Low-Emitting Materials, Systems Furniture and Seating)

**OM5 Series® Product Sustainability Summary**

GREENGUARD™ Certification Status:

GREENGUARD®  
GREENGUARD® GOLD

The OM5 Series® was designed to use a minimum amount of raw resources and extraneous off-the-shelf componentry. With only 10 major parts to the chair, the clean outward appearance of the OM5 Series® is more than just skin deep. Even better, many of these components are 90% recyclable for eventual rebirth as carpet padding, tools, golf clubs or a range of other useful things.

The OM5 Series® is supported by our no-nonsense, lifetime limited warranty; helping to assure users that our chairs are built to last! You can even feel the difference via the OM5's hefty, substantial feel. A great thing because not replacing worn or non-serviceable chairs is the best way to save resources!

And if there ever is a case where a portion of the The OM5 Series® does need to be changed out, the OM5 Series® was also designed with a flexible architecture that allows users to purchase, then change the entire seat/back assembly with relative ease for a fresher look... now that's smart & Green.

Our seating may contribute towards the attainment of the following LEED credits:

- MR Credit 2.1 (Construction Waste Management, 50%)
- MR Credit 2.2 (Construction Waste Management, 75%)
- MR Credit 4.1 (Recycled Content, 10%)
- MR Credit 4.2 (Recycled Content, 20%)
- EQ Credit 4.5 (Low-Emitting Materials, Systems Furniture and Seating)
